Management Discussion and Analysis Report:-

a). Industry Structure and Developments:-

Your company has three business divisions, namely Engineering and Project Divisions, Fertilizer Division & Foods Division. In Engineering & Project Division, the principal product includes steel castings, fabricated steel structures & heavy equipments. Engineering Division also undertakes projects on Turnkey basis. The principal products in Fertilizer Division include Single Super Phosphate (SSP) Granulated Single Super Phosphate (GSSP), Sulphuric Acid, NPK Mixture etc. The principal products in Food Division include Tomato puree, orange concentrate, fruits pulp etc. Food division is also involved in processing and packaging of Milk and Curd for “Amul”.

b). Outlook on Opportunities, Threats, Risk & Concerns:-

Our Engineering Division has already bagged no. of orders from different steel plants. As you are aware, now the company cleared/dispatch all the developmental orders and the Company is now got the status of approved vendor from Railway. Now the company has established the dedicated shop for manufacturing of various Railway products. As per the thrust given by the Government on core infrastructure and ‘Make in India’ initiatives continues to give us a healthy basket of opportunities to tap. Increased allocations by the Centre and States on infrastructure spending, higher levels of outlay by cash-rich Public Sector enterprises and significant funding of infrastructure projects by bi-lateral and multi-lateral lending agencies is propelling the investment momentum forward. Several upcoming projects provide us with a broad perspective of the opportunity horizon opening up for us in 2017-18.

Foundry Division is operating in a highly technology intensive and competitive business which demands continuous up-gradation of technology and product quality. Foundry Division is already supplying castings to Railways (Indian & Foreign) & Mines with improved manufacturing processes thereby reducing the incidence of rejections. Due to the growing expectations of OEMs regarding the quality and quantity of castings, India is expected to produce larger casting facilities over the next few years. The size and scope of large plants are required to address investment requirements, power shortage sand a talent crunch. This means that manufacturers with latest technology of equipments and raw materials will have a bright opportunity in India. Foundry Division is constantly upgrading its own manufacturing standards with better process controls and by high quality of input materials. It is the endeavor of Foundry Division to increase its market share to cater the needs of Railways.

While fertilizers prices will remain weak over the coming quarters, they will not tumble significantly lower than their current levels. This is because prices are currently at multi-year lows and, although capacity and output are growing steadily, demand will start to recover moderately on the back of increasing crop prices.

Fertilizers prices receded substantially since 2012 and have been on a downtrend since the start of 2016, with the current prices being at 5-year or 10-year lows depending on the product. At the same time, we forecast crop prices to start trending higher from 2017 onward, with the notable exceptions of wheat and cocoa. This underpins our view for farmers to increase fertilizers purchases as farm incomes eventually recover. However, over the next five years we forecast a slow price uptrend for most crops as well as crop production growth to be slower than during the previous five-year period. Therefore, demand will provide some relief for fertilizer prices, but it will not be strong enough to pull prices into an uptrend.

We hold the view that fertilizer Companies will continue to underperform over the coming quarters.

Our Food division is also doing well. We have established a processing plant for pasteurization of Raw Milk for doing processing and packaging of Milk for reputed “Amul” Brand. Company is also looking for supply of Orange concentrate to “Coca Cola”.

The Company is well placed to benefit early as sustainable growth opportunities emerge over the next few years.

c). **Segment wise performance:-**

During the year under review your Company achieved Sales and other income of Rs.82,931.75 Lac Segment wise details are as under:-

Divisions	Rs. in lac
Engineering & Corporate	72,466.37
Fertilizers	8,374.70
Constructions	17.85
Foods	2,072.83
Total	82,931.75

The future outlook of your company largely depends on the prevalent conditions in various sectors e.g. Steel, Cement, Mining Railways and Agriculture etc. With the steel sector having turned around the demand for products of engineering division has gone up.

The performance of the Fertilizer Division was hit by higher financial cost including foreign exchange loss and pressure on margin due to over-supply conditions in the Industry, compounded with low capacity utilization.

d). **Internal Control systems and their adequacy:-**

Your Company has already installed adequate internal control systems. The audit committee periodically reviews such systems with the help of internal and statutory auditors and reports to the Board on its adequacy.

e). **Discussion on financial performance with respect to operational performance:-**

The relevant details are given in the Directors' Report.

f). **Human Resources and Industrial Relations:-**

Industrial relations during the year under review have been cordial and peaceful. The company has been continuously making concerted efforts aimed at development of Human Resources to equip them to meet the organizational needs and challenges of the organisation.

General Information for Shareholders:-

Annual General Meeting:-

The Annual General Meeting of the company will be held on the 29th September 2017 at 11.00 A.M. at the registered office of the Company at Hathkhoj Village, Industrial Area, Bhilai- District Durg (C. G.)- 490 026.

"Annexure A" to the Independent Auditors' Report

Referred to in paragraph 1 under the heading 'Report on Other Legal & Regulatory Requirement' of our report of even date to the financial statements of the Company for the year ended March 31,2017:

- 1) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets;
- (b) The Fixed Assets have been physically verified by the management in a phased manner, designed to cover all the items over a period of three years, which in our opinion, is reasonable having regard to the size of the company and nature of its business. Pursuant to the program, a portion of the fixed asset has been physically verified by the management during the year and no material discrepancies between the books records and the physical fixed assets have been noticed.
- (c) The title deeds of immovable properties are held in the name of the company.
- 2) (a) The management conducts physical verification of inventory regularly at reasonable intervals.
- b) The discrepancies noticed on physical verification of the inventory as compared to books records have been properly dealt with in the books of account & these were not material.
- 3) We are unable to comment whether the Company has granted any loans, secured or unsecured to companies, firms, Limited Liability partnerships or other parties covered in the Register under section 189 of the Companies Act 2013 as the register could not be produced by the company. "Annexure B" to the Independent Auditor's Report of even date on the Financial Statements of BHILAI ENGINEERING CORPORATION LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of BHILAI ENGINEERING CORPORATION LIMITED ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
